I considered the question

Letter No. 514 dated 11: March 1907
from the Collector, Customs Station of Montreal

SUBJECT.

Form of retail license for beer.

The proposal of the Collector appears to be not very necessary - Beer is sold by the brewers to the tavern keepers, and the price ^{including duty} has been rightly included in clause 5 of the brewers' license. On the other hand, there is no need for this condition being included in the license

who obtain their beer from the brewers

taken out by the tavern keepers. The wholesale price now fixed is binding on the local brewers, but will not be binding on the brewers outside the Customs Station, for whom the retail license holders may happen to obtain their supplies. There seems to be therefore no need to revise the retail license form or to make any addition to the general rules issued under the Residents' Notification of 526 of 5: Feb: 1903. For the information of the bidders at the auction sale of licenses in the 16: district, it may be announced

that been obtained from the local government, more limited
work at a price not exceeding Rs 30/- per hoghead.
If this be done, no further action seems to be called for.
If affirmed, this note might be sent U.O. to the collector
for future remarks.

Letter No. 917 dated 19th March 1907
from the Collector, C & M Station

SUBJECT.

Proposal of beer taverns for 1907-1908

Under paragraph 3 clause 1 of the Resident's notification No. 526 dated the 5th February 1903, the bids for the taverns are subject to the formal confirmation of the Collector, which, unless perished by the Resident for special reasons, he tantamounts to an acceptance of the bids. The price obtained viz Rs 93,200/- though being less than the average of 5 years ending 1906-1907 viz Rs 34,800, appears to be not unreasonable as there is the strong probability that, in consequence of the improvements which have been ordered in the manufacture of beer, the price of beer will be enhanced and with the possible result of reduction in consumption. The Hon'ble Dy Commr of Mysore having recommended to the Collector confirmation of the bids, no revision of such confirmation seems desirable.

9

2. The Director is right, in not taking into consideration the offers for the whole of the taverns referred to in para: 4 of his letter. The persons who made the offers should have bid for the taverns at the time of auction sale as others had done.

5. In paragraph 114 of the Report of the Indian Excise Committee 1905-1906, it is recorded that beer brewed in Bangalore is not always of proper quality as there has been extensive manufacture of a strong & inferior article for native consumption which has led to the distinguishing from beer proper by the title of 'native' beer. This native beer which was originally nothing but a sugar wash has been, it is remarked, gradually improved & a certain percentage of malt & hops is insisted upon, but it appeared to the Committee that a proper standard of quality had not yet been reached. The standard has not been fixed, but the Committee suggested that one provision should be the requirement of at least two bushels of malt to every household, and it was further suggested that the system of revenue control applied to the breweries in the Madras Presidency should be extended to breweries elsewhere. The above suggestions commended themselves to the Govt of India who ordered their adoption in the G.O. Station. In communication with the Adikari Dy Commr for Madras & the Dy Commr, a new set of rules was framed for the control

Re:

The system now adopted of auctioning the beer taverns for retail vend is to supersede that formerly in force by which the taverns were leased to the brewers who paid a "kist" of Rs 15-8-0 on every hogs head of beer issued therefrom. The total sales referred to in Coll^y letters are to be found at P. N. (S^d 629), and in consequence of the requirements now

made on from the brewers by which they
are obliged to sell beer of a better
quality than hitherto it is natural
that the auction sales' results should be
low, for sales are likely to decline.
The object aimed at by the introduction
of the new scheme was to ~~create~~ ^{secure}

OFFICE OF THE COLLECTOR,

45971565 FROM

P. L. Moore Esq., I. C. S.,
COLLECTOR,

CIVIL AND MILITARY STATION,
BANGALORE.

To

F. P. Rennie Esquire, I. C. S.,
THE FIRST ASSISTANT TO THE HONOURABLE THE RESIDENT
IN MYSORE.

SIR,

I have the honor to submit for the consideration and orders of the Honourable the Resident, the following proposals for the control of the revenue derived from beer in the Civil and Military Station with effect from 1st April next. These proposals are as far as is practicable in accordance with the views and recommendations of the Indian Excise Committee as contained in paragraph 114 of their report. The proposals were prepared in the first instance by the Alkani Deputy Commissioner, Madras and have been carefully considered by me in consultation with him.

2. The proposals relate to:—
(i) Control of breweries

- (2) Quality of beer,
- (3) Disposal of Tunnies, and
- (4) Wholesale and retail prices.

3. With regard to proposal No. 1 - Control of breweries - Following the recommendations of the Excise Committee, it is proposed to issue new rules for the management and control of the breweries in the Station based on those in force in the Madras Presidency. A copy of the draft rules embodying in them the amendments necessary for Bangalore, is submitted herewith for the approval of the Honble the Resident. These rules will of course supersede the existing rules on the subject issued in 1902. A draft of the brewers license as in use in Madras with slight alterations, is also enclosed. The chief features of the changes in the existing system are: (1) that the duty which was hitherto paid on issues will in future be paid on manufactures i.e., on the actual quantity measured in the fermenting vats less 5% wastage; (2) that the permits for local issues hitherto granted by the Superintendent of Excise will in future be issued by the brewer himself, and

Hy B

are based on

at page 927
to be issued
Excise Dept.

and (3) that the payment of duty by the brewer will be quarterly instead of monthly, as heretofore the security deposit now made by them being discontinued. This discontinuance is justified by the fact that the Brewery buildings are ample security for any duty which may fall due and the present system of requiring Brewers to tie up a certain amount of money is rightly considered as a grievance.

(1) It is proposed to reduce the Brewery License fee from Rs 50/- to Rs 15/-. Mr. Bennett explains that no Brewery in England pays more than a Sovereign for a license and the fee in Madras is also Rs 15/-.

4. With regard to proposal No. 2. Quality of Beer:- In this case the recommendation of the Excise Committee is adopted. ~~The~~ brewer's license provides that no beer shall be manufactured (1) from less than 2 bushels of Malt per hogshead and (2) without at least 2 lbs of hops 25% of which may be substituted by an equivalent quantity (not weight

(not weight) of hop substitutes which have been previously approved by the Collector etc. The addition of 2 lbs of hops provided alone is in accordance with the suggestion of Mr. Bennett which may be approved. It will be seen that the term "Country beer" is retained and is defined as beer which satisfies the conditions laid down in para 4 of the Brewer's Licence and in the manufacture of which crude sugar is used.

5. In this connection, it may be mentioned here that of the existing four breweries, only two will be able to turn out the new and the improved kind of beer. The other two breweries are not at present equipped with the plant and machinery necessary for the purpose.

6. With regard to proposal No. 3- Disposal of Taverns:- It is proposed to do away with the present system of leasing the taverns annually to the brewers at a fixed price for each - hogshead of beer sold in the tavern
and

and to revise the system by which the taverns were disposed of annually by auction to the highest bidder. A draft Notification for selling the taverns is enclosed for approval and publication. The schedule annexed to the Notification gives the average consumption in each tavern for 5 years (from 1902-03 to 1906-07) and also the actual consumption for 9 months and the probable consumption for the current year. These particulars are for the information of intending purchasers. In the event of the auction proving unsatisfactory Mr. Bennett suggests that tenders may be invited for individual shops or for groups of shops from competitors.

(1) The reason for proposing the introduction of the Auction System is that the conditions of brewing are being changed and the Auction System is the best way of finding out what the value of the shops will be. It is in fact such an experiment as is contemplated in para 199 of

And must be
reconsidered by
the J. C.

of the Excise Committee's report. Moreover as we anticipate the closing of all the breweries except those of the Bangalore Brewery Company, any arrangement by which shops were assigned to brewers would result in an absolute monopoly.

(2) It is essential of course that the auction should take place without delay and I propose that, if the Honorable the Resident approves, it may be held on 16th instant.

(3) The number of beer taverns at present existing in the Station is 26, including the one which has been opened as a temporary measure on account of plague within the British Cavalry Lines. This tavern has been in existence for nearly four years and will be sold along with the remaining taverns if the Officer Commanding wishes its continuance. Mr. Beinett thinks that three taverns Nos. 7, 14 and 25 may well be abolished as the sales in them are very small. This may be done and the

Yes
JL

taverns

taverns have accordingly been marked in the Schedule.

7. With regard to the fourth or the last proposal - Wholesale and retail prices:-

The present retail price for 8 Maasas draams is annas 2/- as fixed by the Resident's proceedings No: 1203 dated 22nd February 1906.

The marginal figures show how the price to the shops (Rs 40-8--) is made up.

At 2 annas for 8 draams = 12 annas per gallon
or,
40-8-- per hoghead
3-6-- deduct duty
37-2-- deduct Khist
21-10-- cost of production and
Brewers profits (Brewers' price).

8. In order to allow sufficient margin of profit to the brewer in turning out good beer on the improved method, Mr. Bernatt proposes to fix his future price at Rs 30-- per

At 2 1/2 annas for 8 draams = 15 annas per gallon.
or,
50-10-- per hoghead
3-6-- deduct duty
47-4-- deduct (Brewers' price)

hoghead exclusive of the duty of Rs 3-6-- This rate may be sanctioned. Assuming

that a purchaser (other than the brewer) - retails 8 draams at 2 1/2 annas, he will make a profit of Rs 17-4-- on each hoghead of beer. This will enable him to pay the Government Khist at the same rate at which

which it is now paid by the brewers and make a nett profit for himself of about Rs 2/- on each hogshead sold. The existing retail price of annas 2/- for 8 drams is no longer necessary and should be abolished.

The forms etc. prescribed for use in the breweries will be submitted for sanction separately.

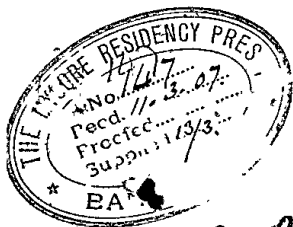

I have the honor to be

which the purpose of, and the distinguish-
-ing mark on each room, place and vessel
shall be clearly specified. The entry will
be checked either by the Superintendent
of Excise or some other officer authorised
to inspect breweries, who will certify
to the fact if he finds it correct, and
submit it with the brewer's application,
the treasury receipt and his remarks to
the ^(Meeor) ~~Alkari Deputy Commissioner, Meeras, (Meeor)~~
who will, if satisfied with the entry
and that the applicant is a fit person
to receive a license, recommend the issue
of a license and the Resident will, if he
thinks fit, issue a license accordingly.

Note:- Persons desirous of constructing
new buildings or equipping already existing
buildings to be used as breweries are advised,
before commencing the work to submit
plans of the buildings and descriptions
of

~~1. The~~ of the plant they propose to put up
to the ~~Alkari~~ ^(Collector) ~~Deputy~~ Commissioner
~~Madras~~ through the Excise Superintendent
for approval. Any alterations and in
additions suggested by the latter officer
should be duly attended to, since persons
neglecting to comply with such suggestions
will run the risk of being refused a
brewery license.

3. An officer (hereinafter called
the Surveying Officer) will be appointed
by the collector to take account of all
the operations in the brewery, and it
shall be competent for him or for
any other officer authorised to inspect
breweries to enter the building and visit
and examine any room, place or utensil
mentioned in the entry at any time either
by day or night.

4. Licenses shall be in such form

and for such period as the Resident
may from time to time prescribe and
may be renewed. Each application for
renewal shall be made to the ^{superintendent} collector
at least one month before the expiration
of the license and shall be accompanied
by a treasury receipt for Rs 15/-. A copy of
the entry shall also be filed unless there
has been no change in either the buildings
or the plant since the issue of the
previous license, in which case it
will suffice if the surveying officer
endorses that fact upon the application.

The Superintendent of Excise will submit
the application with its enclosures to the
(^{Collector for orders}
~~Abkari Deputy Commissioner, Madras, Collector~~
who will, if he sees no reason to the
contrary, recommend the renewal of
the license to the collector.)

5. All mash tuns, under-barks,
coppers,

coppers, coolers, fermenting and racking, or settling vessels shall be so placed and fixed as to admit of the contents being accurately gauged and measured. & Before being taken into use all such vessels shall be gauged jointly by the Superintendent of Excise and the Surveying Officer under the rules in force for gauging such vessels, and table shall be constructed showing the total capacity of each vessel in imperial gallons (in the case of mash tuns in imperial bushels) and its capacity for each tenth of an inch in depth. These tables before being taken into use shall be certified by the brewer or his accredited agent to be correct.

b. The name, or an abbreviation thereof, of each room or vessel shall be conspicuously painted thereon, and where

where more than one room or vessel is used for the same purpose they shall be distinguished by progressive numbers. Any room or vessel entered for a specific purpose shall be used for that purpose solely.

7. No alteration shall be made in the position or capacity of any gauged vessel without previous sanction in writing having been obtained from the surveying officer or his superior officer; and before any vessel so altered can be again taken into use it shall be regauged and new tables shall, if necessary, be constructed. In the absence of the Superintendent of Excise and to avoid delay such regauging shall be effected by the surveying officer and such other officer as the collector may direct, their results being

being checked by the Superintendent of Excise on his next visit to the Brewery

8. Where beer is stored in casks which are used exclusively for storing beer and not for issue from the brewery such casks shall be numbered consecutively and each shall have marked on both heads its number and capacity which shall also be entered in a register to be kept by the brewer in a form prescribed by the Resident. Any cask removed for repair or re-coopering shall be regauged before being again taken into use and, if the capacity has been affected, a new entry shall be made in the cask register.

9. The surveying officer will be provided departmentally with proper gauging rods and a standard saccharometer and thermometer. If
the

the brewer questions the correctness of the instruments or the results obtained by the officer, he must immediately put in a written protest which will be forwarded with his remarks by the officer to the Superintendent of Excise who will, after due enquiry, report the matter ~~(to the Abkari-Deputy Commissioner, - Abkari, who will~~ submit the report ~~to the collector~~ to the collector for orders. omit?

10. Each licensed brewer shall keep in some part of the brewery previously approved by the collector a brewing book in such form as the Resident may prescribe. This will be supplied to him by the surveying officer, and it shall be accessible by day or night to all officers

officers authorised to inspect the brewery, In this book the brewer or some responsible person employed by him, whose name has been previously approved by the collector shall correctly enter the particulars of each brewing. The book shall not be in any way defaced or mutilated and the loss of it will entail immediate suspension of the brewer's licence and if, on enquiry, the explanation of the brewer is unsatisfactory, his license may be cancelled.

11. The brewer shall enter in the proper columns at least 24 hours before beginning to mash malt or grain or to dissolve sugar the day and hour of brewing with the date and hour of making the entry, and at least six hours before the time

time entered for mashing or dissolving, he shall enter separately in the proper columns the quantities of malt or unmalted corn and of sugar or glucose to be used and the hour when all the worts will be drawn off the grains in the mash tun. He shall also enter in the appropriate columns the dip and gravity of the worts collected, the number and description of the vessel or vessels in which they have been collected and the date and hour of the entry. Such entry shall be made within one hour after the collection has been completed or if the worts be not collected before 6 p. m. the entry shall be made before 8 next morning. If fermentation has started before the requisite entry has been made, the brewer shall enter the

the true original gravity of the wort.
Each entry shall be initialed by
the brewer or his agent.

12. Beer shall be brewed from
good materials and its quality shall
be such as to satisfy the Resident.
Wort shall not be brewed of a higher
gravity than 1073° . Nothing shall
be added to beer after it has been
racked and removed to a beer store,
except finings or other material
approved by the collector. Beer in
beer stores must not be diluted
and any beer found in store which
has been either diluted or in any
way adulterated shall be liable
to forfeiture. The forfeiture of the beer
will not relieve the brewer from
the penalty of fine or cancellation
of license under rule 21.

13. Officers surveying breweries shall on every day on which they visit a brewery make a complete survey of the whole of the brewery plant showing in the proper columns in a survey book, the form of which will be prescribed by the Resident the condition of each vessel and the dip and gravity of each vessel containing fermenting wort unless such wort shall be fining, when, except in case of suspicion of fraudulent addition of saccharine matter or of addition or removal of wort, the surface need not be broken. A copy of each survey will be made in a similar book and left at the brewery for the information of the brewer.

14. Each brewer shall keep a stock account in such form as may be prescribed by the Resident in which ^{he}

he shall daily enter the quantity of beer actually brewed by him the allowance for wastage at 5 per cent the net quantity. The quantity issued and the person to whom issued. Each issue to any place within the Civil and Military station of Bangalore shall be accompanied by a permit the counterfoil of which shall be retained in the permit book. Permits shall be consecutively numbered and before any permit book is taken into use it shall be examined by the Swivering Officer who will certify as to its correctness. No brewer is allowed to issue permits for consignments of beer to be exported to places outside the Civil and Military station of Bangalore. Applications for such permits should be made to the Superintendent of Excise who, if he sees no reason to the contrary will grant the permit which must accompany the consignment and send a letter of advice to the brewer

all

All such letters of advice and Counterfoils,
of permits issued by the brewer must be
retained for at least a year. The stock
book will be checked at least once in
each week by the Surveying Officer;
the quantities brought into it being
compared with those entered in his survey
book and the issues with the Counter-
foils of the permits issued, with the
letters of advice from the Superintendent
of Excise, if any, and with the certificates
granted by the Officers of the Department
to whom beer has been issued on the
Public Service

15. No entry in any of the books
kept by a brewer under these rules
shall be erased or overwritten. Should
it be necessary to correct any entry
a line should be drawn through the
incorrect entry in such a manner
as to leave it distinctly visible and
the amended entry should be inserted
above it. —————

Every

Every Correction shall be intialled by the person making it at the time and by the Surveying Officer in his next inspection of the book. Merely clerical or arithmetical errors need not be specially noticed, but in the case of errors, which cannot be so classed, the explanation of the brewer should be obtained and submitted to the Superintendent of Excise with the Surveying Officers remarks.

16. Samples of wort in any stage of fermentation or of stored beer may be taken for analysis without payment by the Surveying Officer or any other Officer authorized to inspect breweries. Samples of wort during fermentation should be taken by the Surveying Officers at least once in each quarter in accordance with such instructions as the Resident may issue and ~~forwarded by the~~ ~~Excise Superintendent to the~~ Laboratory

The Excise Officer should
have them analyzed.

³
~~Laboratory of the Board of Revenue~~
~~Separate Revenue Madras for analysis.~~

On any other occasion on which samples are taken either of wort or beer the Officer tarding them should submit a special report through the Superintendent of Excise to the Collector explaining the reasons for sampling and the nature of the analysis required.

Samples of brewing materials will only be taken if Called for by the Collector.

When however there is a large discrepancy between the quantity of malt or — unmaltd Corn entered in the brewing book and that of the grains in the mash tun, a sample of the grains should be taken and atonce sent for analysis together with a report giving a copy of the entry in the brewing book the dip of the grains in the mash tun, the quantity represented by the dip and the percentage of increase

increase or decrease. . . . On this report
and after examination of the Sample,
~~(the Alkali deputy Commissioner will~~
^{omit.} ~~report the matter to)~~ the Collector ~~(who)~~
will pass such orders as he thinks fit.

17. The stock of beer in every
brewery will be taken at least
twice in each year by the Superintendent
of Excise or such other Officer as the
Collector may direct and the results
reported to the Collector. Stock may
be taken at other times by the Surveying
Officer or other Officer Superior to
him and shall be taken at once if
there is any suspicion of fraudulent
practices. On each such occasion
the Officer taking stock will immediately
report the result to the Collector with
his reasons for taking stock. The
explanation of the brewer for any
excess or deficiency exceeding one per
cent found in stock should be obtained
before the report is submitted.

The

The collector will pass orders whether any, and if so, how much duty shall be claimed in regard to such excess or deficiency.

18. The Superintendent of Excise after careful examination of all the books will submit to the Collector ~~(through the Assistant Deputy Commissioner, District)~~ at the end of each quarter an account showing the quantity of beer actually brewed less five per cent allowed for wastage and the duty thereon calculated at the rate of one anna per imperial-gallon or at such other rate as may be prescribed by the Government.

On this account the Collector will pass orders as to the amount of duty to be paid. Beer issued to the Supply and Transport Department on the public service for which — certificates have been granted by the officers of that department, should be

be deducted from the net quantity brewed during the quarter before calculating the duty.

19. The brewer shall pay the duty demanded into the Residents' Treasury within five days of the receipt of advice of its amount. Interest at 6% per annum will be calculated upon all sums over due at the date of payment. The Treasury officer will grant a receipt to the brewer for all such payments and send a letter of advice to the Superintendent of Excise who will notify the payment to the Collector.

20. If a brewer objects to the amount of duty demanded from him he may move the Collector to revise the charge. But no revision will be undertaken unless and until all sums demanded under Rule 8 have been paid. In the event of the original charge being found incorrect, any excess levied

received from him will be refunded to the brewer, and if the amount claimed from him is found to be less than that actually due he will be

called upon to pay the difference at once into the Residents Treasury. The Brewery buildings shall be security for any duty which may become overdue.

21. In case of any breach of these rules or of the conditions of the license either by the brewer or by any person in his employment, it shall be competent for the Collector to impose a fine not exceeding Rs 50/- for each such breach or to suspend or recommend the cancellation of license.

22. The imposition of a fine or the suspension or cancellation of the license under the last preceding rule shall not be held to prevent the prosecution of any person for any offence which he may commit against the provisions of the Excise Act XII of 1896 or other law for the time being in force. If on such prosecution before a magistrate —
a brewer

if brewer be convicted it shall be lawful for the Collector to declare his license forfeited.

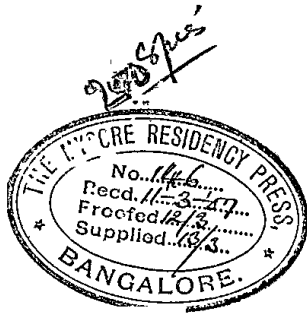

23. On a date to be fixed by the Collector, subsequent to the date on which these rules come into force, stock will be taken at all existing breweries, duty at the rate for the time being in force, will be claimed on all beer then found, less a five per cent allowance for wastage and a date or dates will be fixed by which all the duty so claimed must be paid into the Resident's Treasury.

24. Breweries shall be bound by all additional rules for the control of breweries which may hereafter be prescribed under the existing Excise law or under any law which may hereafter be enacted and by all special orders issued by the Resident with regard to individual breweries and shall cause all persons employed by them in their breweries to obey all such rules.

No. 67 (291)

THE HON'BLE THE RESIDENT IN MYSORE.

Notification.

No. 10, dated Bangalore, the 11th March 1907.

Brewery Rules.

In exercise of the powers conferred upon him by section 9 (d), (e), (f) of the Excise Act, 1896 (XII of 1896), as in force in the Civil and Military Station of Bangalore, the Hon'ble the Resident in Mysore is pleased to make the following rules for the working and supervision of breweries in the said Civil and Military Station in supersession of the rules issued under his Notification No. 261, dated 16th January 1902. These rules will come into force from the 1st April 1907:—

1. In these rules, unless the contrary appears from the context, "Collector" means the Collector of the Civil and Military Station of Bangalore.

2. Any person desirous of obtaining a license for a brewery shall apply to the Collector through the Superintendent of Excise, Civil and Military Station, Bangalore. The application shall be accompanied by a treasury receipt for Rs. 15 and a full description (hereinafter called an entry) of his premises and utensils, in which the purpose of, and the distinguishing mark on each room, place and vessel, shall be clearly specified. The entry will be checked either by the Superintendent of Excise or some other officer authorised to inspect breweries, who will certify to the fact if he finds it correct, and submit it with the brewer's application, the treasury receipt and his remarks to the Collector, who will, if satisfied with the entry and that the applicant is a fit person to receive a license, recommend the issue of a license and the Resident will, if he thinks fit, issue a license accordingly.

Note.—Persons desirous of constructing new buildings or equipping already existing buildings to be used as breweries are advised, before commencing the work to submit plans of the buildings and descriptions of the plant they propose to put up to the Collector through the Excise Superintendent for approval. Any alterations and additions suggested by the latter officer should be duly attended to, since persons neglecting to comply with such suggestions will run the risk of being refused a brewery license.

3. An officer (hereinafter called the Surveying Officer) will be appointed by the Collector to take account of all the operations in the brewery, and it shall be competent for him or for any other officer authorised to inspect breweries to enter the building and visit and examine any room, place or utensil mentioned in the entry at any time either by day or night.

4. Licenses shall be in such form and for such period as the Resident may from time to time prescribe and may be renewed. Each application for renewal shall be made to the Superintendent of Excise at least one month before the expiration of the license and shall be accompanied by a treasury receipt for Rs. 15. A copy of the entry shall also be filed unless there has been no change in either the buildings or the plant since the issue of the previous license, in which case it will suffice if the surveying officer endorses that fact upon the application. The Superintendent of Excise will submit the application with its enclosures to the Collector for orders.

5. All mash tuns, underbacks, coppers, coolers, fermenting and racking or setting vessels shall be so placed and fixed as to admit of the contents being accurately gauged and measured. Before being taken into use all such vessels shall be gauged jointly by the Superintendent of Excise and the Surveying Officer under the rules in force for gauging such vessels, and tables shall be constructed showing the total capacity of each vessel in imperial gallons (in the case of mash tuns in imperial bushels) and its capacity for each tenth of an inch in depth. These tables before being taken into use shall be certified by the brewer or his accredited agent to be correct.

6. The name, or an abbreviation thereof, of each room or vessel shall be conspicuously painted thereon, and where more than one room or vessel is used for the same purpose they shall be distinguished by progressive numbers. Any room or vessel entered for a specific purpose shall be used for that purpose solely.

7. No alteration shall be made in the position or capacity of any gauged vessel without previous sanction in writing having been obtained from the surveying officer or his superior officer; and before any vessel so altered can be again taken into use it shall be regauged and new tables shall, if necessary, be constructed. In the absence of the Superintendent of Excise and to avoid delay, such regauging shall be effected by the surveying officer and such other officer as the Collector may direct, their results being checked by the Superintendent of Excise on his next visit to the brewery.

8. Where beer is stored in casks which are used exclusively for storing beer and not for issue from the brewery, such casks shall be numbered consecutively and each shall have marked on both heads its number and capacity, which shall also be entered in a register to be kept by the brewer in a form prescribed by the Resident. Any cask removed for repair or recoopering shall be regauged before being again taken into use and, if the capacity has been affected, a new entry shall be made in the cask register.

9. The surveying officer will be provided departmentally with proper gauging rods and a standard saccharometer and thermometer. If the brewer questions the correctness of the instruments or the results obtained by the officer, he must immediately put in a written protest which will be forwarded with his remarks by the officer to the Superintendent of Excise who will, after due enquiry, report the matter to the Collector for orders.

10. Each licensed brewer shall keep in some part of the brewery, previously approved by the Collector, a brewing book in such form as the Resident may prescribe. This will be supplied to him by the surveying officer, and it shall be accessible by day or night to all officers authorised to inspect the brewery. In this book the brewer or some responsible person employed by him, whose name has been previously approved by the Collector, shall correctly enter the particulars of each brewing. The book shall not be in any way defaced or mutilated and the loss of it will entail immediate suspension of the brewer's license and if, on enquiry, the explanation of the brewer is unsatisfactory, his license may be cancelled.

11. The brewer shall enter in the proper columns at least 24 hours before beginning to mash malt or grain or to dissolve sugar the day and hour of brewing with the date and hour of making the entry, and at least six hours before the time entered for mashing or dissolving he shall enter separately in the proper columns the quantities of malt or unmalted corn and of sugar or glucose to be used and the hour when all the worts will be drawn off the grains in the mash tun. He shall also enter in the appropriate columns the dip and gravity of the worts collected, the number and description of the vessel or vessels in which they have been collected and the date and hour of the entry. Such entry shall be made within one hour after the collection has been completed or, if the worts be not collected before 6 p. m., the entry shall be made before 8 next morning. If fermentation has started before the requisite entry has been made, the brewer shall enter the true original gravity of the worts. Each entry shall be initialled by the brewer or his agent.

12. Beer shall be brewed from good materials and its quality shall be such as to satisfy the Resident. Wort shall not be brewed of a higher gravity than 107°³. Nothing shall be added to beer after it has been racked and removed to a beer store, except finings or other material approved by the Collector. Beer in beer stores must not be diluted and any beer found in store which has been either diluted or in any way adulterated shall be liable to forfeiture. The forfeiture of the beer will not relieve the brewer from the penalty of fine or cancellation of license under rule 21.

13. Officers surveying breweries shall on every day on which they visit a brewery make a complete survey of the whole of the brewery plant showing in the proper columns in a survey book, the form of which will be prescribed by

the Resident, the condition of each vessel and the dip and gravity of each vessel containing fermenting wort unless such wort shall be fining, when, except in case of suspicion of fraudulent addition of saccharine matter or of addition or removal of wort, the surface need not be broken. A copy of each survey will be made in a similar book and left at the brewery for the information of the brewer.

14. Each brewer shall keep a stock account in such form as may be prescribed by the Resident in which he shall daily enter the quantity of beer actually brewed by him, the allowance for wastage at 5 per cent, the net quantity, the quantity issued and the person to whom issued. Each issue to any place within the Civil and Military Station of Bangalore shall be accompanied by a permit, the counterfoil of which shall be retained in the permit book. Permits shall be consecutively numbered, and before any permit book is taken into use it shall be examined by the Surveying Officer who will certify as to its correctness. No brewer is allowed to issue permits for consignments of beer to be exported to places outside the Civil and Military Station of Bangalore. Application for such permits should be made to the Superintendent of Excise who, if he sees no reason to the contrary, will grant the permit which must accompany the consignment and send a letter of advice to the brewer. All such letters of advice and counterfoils of permits issued by the brewer must be retained for at least a year. The stock book will be checked at least once in each week by the Surveying Officer, the quantities brought into it being compared with those entered in his survey book and the issues with the counterfoils of the permits issued, with the letters of advice from the Superintendent of Excise, if any, and with the certificates granted by the officers of the department to whom beer has been issued on the public service.

15. No entry in any of the books kept by a brewer under these rules shall be erased or overwritten. Should it be necessary to correct any entry a line should be drawn through the incorrect entry in such a manner as to leave it distinctly visible and the amended entry should be inserted above it. Every correction shall be initialled by the person making it at the time and by the Surveying Officer in his next inspection of the book. Merely clerical or arithmetical errors need not be specially noticed, but in the case of errors, which cannot be so classed, the explanation of the brewer should be obtained and submitted to the Superintendent of Excise with the Surveying Officer's remarks.

16. Samples of wort in any stage of fermentation or of stored beer may be taken for analysis without payment by the Surveying Officer or any other officer authorized to inspect breweries. Samples of wort during fermentation should be taken by the Surveying Officer at least once in each quarter in accordance with such instructions as the Resident may issue and the Excise Superintendent should have them analysed. On any other occasion on which samples are taken, either of wort or beer the officer taking them should submit a special report through the Superintendent of Excise to the Collector explaining the reasons for sampling and the nature of the analysis required. Samples of brewing materials will only be taken if called for by the Collector. When however there is a large discrepancy between the quantity of malt or unmalted corn entered in the brewing book and that of the grains in the mash tun, a sample of the grain should be taken and at once sent for analysis together with a report giving a copy of the entry in the brewing book, the dip of the grains in the mash tun, the quantity represented by the dip and the percentage of increase or decrease. On this report and after examination of the sample, the Collector will pass such orders as he thinks fit.

17. The stock of beer in every brewery will be taken at least twice in each year by the Superintendent of Excise or such other officer as the Collector may direct and the results reported to the Collector. Stock may be taken at other times by the Surveying Officer or other officer superior to him and shall be taken at once if there is any suspicion of fraudulent practices. On each such occasion the officer taking stock will immediately report the result to the Collector with his reasons for taking stock. The explanation of the brewer for any excess or deficiency exceeding one per cent found in stock should be obtained before the report is submitted. The Collector will pass orders whether any, and if so, how much duty shall be claimed in regard to such excess or deficiency.

18. The Superintendent of Excise after careful examination of all the books will submit to the Collector at the end of each quarter an account showing the quantity of beer actually brewed, less five per cent allowed for wastage, and the duty thereon calculated at the rate of one anna per imperial gallon or at such other rate as may be prescribed by the Government. On this account the Collector will pass orders as to the amount of duty to be paid. Beer issued to the Supply and Transport Department on the public service, for which certificates have been granted by the officers of that department, should be deducted from the net quantity brewed during the quarter before calculating the duty.

19. The brewer shall pay the duty demanded into the Resident's Treasury within five days of the receipt of advice of its amount. Interest at 6 per cent per annum will be calculated upon all sums overdue at the date of payment. The Treasury Officer will grant a receipt to the brewer for all such payments and send a letter of advice to the Superintendent of Excise who will notify the payment to the Collector.

20. If a brewer objects to the amount of duty demanded from him he may move the Collector to revise the charge. But no revision will be undertaken unless and until all sums demanded under Rule 18 have been paid. In the event of the original charge being found incorrect any excess levied from him will be refunded to the brewer, and if the amount claimed from him is found to be less than that actually due he will be called upon to pay the difference at once into the Resident's Treasury. The brewery buildings shall be security for any duty which may become overdue.

21. In case of any breach of these rules or of the conditions of the license either by the brewer or by any person in his employment, it shall be competent for the collector to impose a fine not exceeding Rs. 50 for each such breach or to suspend or recommend the cancellation of the license.

22. The imposition of a fine or the suspension or cancellation of the license under the last preceding rule shall not be held to prevent the prosecution of any person for any offence which he may commit against the provisions of the Excise Act XII of 1896 or other law for the time being in force. If on such prosecution before a magistrate a brewer be convicted, it shall be lawful for the collector to declare his license forfeited.

23. On a date to be fixed by the collector, subsequent to the date on which these rules come into force stock will be taken at all existing breweries. Duty, at the rate for the time being in force, will be claimed on all beer then found, less a five per cent allowance for wastage, and a date or dates will be fixed, by which all the duty so claimed must be paid into the Resident's Treasury.

24. Brewers shall be bound by all additional rules for the control of breweries which may hereafter be prescribed under the existing Excise law or under any law which may hereafter be enacted and by all special orders issued by the Resident with regard to individual breweries and shall cause all persons employed by them in their breweries to obey all such rules.

I am acknowledging the receipt of the Resident's Notification No: 9 dated the 11th instant, regarding the sale of beer taverns for the next year, and his Proceedings No: 2209 of the same date. I have the honour to state with reference to para 4 of the Proceedings that it is not proposed to restrict the retail price of beer. The existing rate of annas 2 for 8 Madras drams should be abolished as stated in my letter No: 788 of the 6th instant. I request that the Resident's order fixing this rate may be cancelled.

2. In para 8 of my letter I merely made a calculation of what a purchaser's profit might be expected to be, assuming that he retails at $2\frac{1}{2}$ annas for 8 drams.

3. The principle of the present rules

is

is to fix no retail prices but only the
price for sale by a Brewery.

To F. P. Rennie Esquire, I. C. S.,
THE FIRST ASSISTANT TO THE HONOURABLE THE RESIDENT
IN MYSORE,

SIR,

In continuation of my letter No. 738 dated 6th instant, I have the honor to state that the wholesale price of beer, namely, Rs. 30/- at which the brewer is required to sell his beer appears nowhere except in the brewer's license, a draft of which is already forwarded to you. I think it is necessary that it should appear in the retail license form No. 3 and may be put in as part of Clause I of rule 4 of the Excise rules issued under the Resident's Notification No. 526 dated 5th February 1903. I enclose a copy of the beer Tavern license form No. 3 in which I have made:

made the necessary addition, and request
that if the suggestion is approved 50 copies
of the printed forms of license may be
supplied to this office.

2. If the proposal to add to the
rule as above suggested does not meet
with the approval, a separate order to

*Collector, Civil and Military Station,
 Bangalore.*

This license is issued subject to the provisions of the Excise Laws for the time being in force in the Civil and Military Station of Bangalore. Special attention is invited to the rules contained in the Resident's Notification No. 526, dated the 5th February 1903, rules 4 and 6 of which are reproduced below:—

All licenses granted under these rules shall be subject to the following conditions:—

i. Sale of ^{liquor}~~intoxicating drugs~~ shall be made only in the building specified in the license granted and not elsewhere on any pretext whatever.

ii. The licensee shall be bound by any additional rules which may be prescribed under the Excise Law now in force, or which may hereafter be enacted, and shall, on requisition by the Collector or by any officer duly authorized by the Collector, deliver up this license for amendment or for the issue of a fresh license accordingly.

iii. No liquor or intoxicating drugs other than that to which the license relates shall be kept or sold in the building covered by the license.

iv. The licensee shall, unless specially exempted by the Collector, keep a true account in ink in such form as may be prescribed by the Resident, showing the quantity (and, in the case of arrack, the strength) of the liquor or intoxicating drugs received in his shop, the quantity (and, in the case of arrack, the strength) of the liquor or intoxicating drugs sold, the prices at which they are sold, and the quantity remaining unsold each day. Such account shall be produced for the inspection of the Collector, or any Excise officer not below the rank of Sub-Inspector or any Police officer not below the rank of Inspector. An inspection note-book with the pages numbered consecutively shall also be maintained intact at each shop at the cost of the licensee so that officers who may inspect the shop may enter their remarks therein. This note-book shall be handed over to the Collector or any officer authorized by him to receive it, whenever it is demanded. The licensee shall furnish such other returns and information as may from time to time be required by the Collector or the Superintendent of Excise.

v. All ^{liquor}~~intoxicating drugs~~ kept for sale shall be of good quality and wholesome.

vi. The license may at any time be withdrawn by the Collector on giving one month's notice. The Collector may also direct that the shop shall be temporarily closed on the grounds of police administration or expediency. No remission or compensation shall be claimed if it is found necessary to enforce this latter clause.

vii. The licensee shall place his license in a conspicuous place on the premises licensed.

viii. The licensee shall fix in a conspicuous part of the front of his shop a sign-board on which his name as well as that of the vendor, the ^{liquor}~~intoxicating drugs~~ he is licensed to sell, and the number of his license shall be legibly inscribed in *English* and the vernacular language of the locality in which the shop is situated.

ix. The licensee shall prevent all drunkenness or disorder or gaming within his shop. Persons suffering from leprosy or other contagious diseases shall not be employed in the shops or in transport of ^{liquor}~~intoxicating drugs~~ to the shop. He shall not harbour robbers, thieves or riotous persons, neither shall he harbour or conceal soldiers, knowing or having reason to believe such soldiers to be deserters, but shall give information to the nearest Magistrate or Police Officer as to any such persons who may resort to his shop. Neither shall he permit prostitutes or persons of notoriously bad character to meet or remain in the shop.

x. Should the licensee hold more than one kind of license for the sale of ^{liquor}~~intoxicating drugs~~ on the same premises, he shall keep his account of transactions under each license separately.

6

All licenses granted under these rules for the vend of spirits or fermented liquors to be consumed on the premises, or for the vend of intoxicating drugs, shall be subject to the following conditions:—

i. The licensee shall not have any pecuniary dealings of any kind whatever with any of the excise or revenue officials.

ii. The licensee shall not open his shop before sunrise, nor keep it open after 9.30 p. m., except on special permit to be obtained from the Collector or the Superintendent of Excise.

iii. The room used for the shop shall always be separate from the shopkeeper's dwelling-house. The shop shall have only one door which shall face the street, and

xxx. The licensee may obtain his supply of beer from the brewer at a price not exceeding Rs 30/- per hoghead.

there shall be no other openings to the rear or ends of the building. No second room shall be allowed for the sale of $\frac{\text{liquor}}{\text{intoxicating drugs}}$ or for the use of customers.

iv. The licensee shall neither sell nor give $\frac{\text{liquor}}{\text{intoxicating drugs}}$

(a) without the special authority of the Officer Commanding the Regiment or Battery concerned, countersigned by the District Magistrate, to any

- (1) European non-commissioned officer or private ;
- (2) European or Eurasian camp follower ;
- (3) Members of the families of any of the aforesaid persons ;

(b) whilst on duty, to any

- (1) Sepoy, member of the police or excise department ; or
- (2) Servant of a railway company ;

(c) under any circumstance to any

- (1) European vagrant under escort of the police ;
- (2) Child under twelve years of age ; or
- (3) Insane person.

v. The licensee shall maintain a sufficient supply of $\frac{\text{liquor}}{\text{intoxicating drugs}}$ in his shop which shall never be less than $\frac{\text{two imperial gallons.}}{\text{two seers.}}$

vi. The licensee shall not allow any quantity of $\frac{\text{liquor}}{\text{intoxicating drugs}}$ exceeding the quantity which the Resident may from time to time prescribe, to be conveyed from the premises, except on special passes which may be obtained, for special reasons only, from the Collector or the Superintendent of Excise.

The quantity of $\frac{\text{liquor}}{\text{intoxicating drugs}}$ at present allowed to be conveyed out of the shop is in the case of—

- | | | | | |
|------------|---|----------------------|-----|--------|
| a. Liquor— | { | 1. Foreign spirits | ... | 4 drs. |
| | | 2. Country spirits | ... | 8 drs. |
| | | 3. Fermented liquors | ... | 8 drs. |

b. Intoxicating drugs—5 tolas of ganja, charas or preparation thereof; 1 seer of bhang or preparation thereof.

vii. The licensee shall not receive any grain, jewels, goods, wearing apparel or other article, in barter or pawn for liquor, neither, save in the case of liquor sold under an hotel license, shall any credit be given. Payment for liquor shall be made in ready money only, at the time of sale.

viii. The licensee shall use only such weights and measures as shall be approved of by the Collector, and, if so required by the Collector, shall have the same stamped at his own cost.

ix. It shall be within the power of the Resident to prescribe minimum rates for the sale of $\frac{\text{liquor}}{\text{intoxicating drugs}}$ and when such rates have been prescribed they shall be binding upon the licensee.

NOTE.—Any such special authority received by the licensee should be retained by him so as not to be used more than once.

THE HON'BLE THE RESIDENT IN MYSORE

Notification.

No. 10, dated Bangalore, the 11th March 1907.

Brewery Rules.

In exercise of the powers conferred upon him by section 9(d), (e), (f) of the Excise Act, 1896 (XII of 1896), as in force in the Civil and Military Station of Bangalore, the Hon'ble the Resident in Mysore is pleased to make the following rules for the working and supervision of breweries in the said Civil and Military Station in supersession of the rules issued under his Notification No. 261, dated 16th January 1902. These rules will come into force from the 1st April 1907 :—

1. In these rules, unless the contrary appears from the context, "Collector" means the Collector of the Civil and Military Station of Bangalore.

2. Any person desirous of obtaining a license for a brewery shall apply to the Collector through the Superintendent of Excise, Civil and Military Station, Bangalore. The application shall be accompanied by a treasury receipt for Rs. 15 and a full description (hereinafter called an entry) of his premises and utensils, in which the purpose of, and the distinguishing mark on each room, place and vessel, shall be clearly specified. The entry will be checked either by the Superintendent of Excise or some other officer authorised to inspect breweries, who will certify to the fact if he finds it correct, and submit it with the brewer's application, the treasury receipt and his remarks to the Collector, who will, if satisfied with the entry and that the applicant is a fit person to receive a license, recommend the issue of a license and the Resident will, if he thinks fit, issue a license accordingly.

Note.—Persons desirous of constructing new buildings or equipping already existing buildings to be used as breweries are advised, before commencing the work to submit plans of the buildings and descriptions of the plant they propose to put up to the Collector through the Excise Superintendent for approval. Any alterations and additions suggested by the latter officer should be duly attended to, since persons neglecting to comply with such suggestions will run the risk of being refused a brewery license.

3. An officer (hereinafter called the Surveying Officer) will be appointed by the Collector to take account of all the operations in the brewery, and it shall be competent for him or for any other officer authorised to inspect breweries to enter the building and visit and examine any room, place or utensil mentioned in the entry at any time either by day or night.

4. Licenses shall be in such form and for such period as the Resident may from time to time prescribe and may be renewed. Each application for renewal shall be made to the Superintendent of Excise at least one month before the expiration of the license and shall be accompanied by a treasury receipt for Rs. 15. A copy of the entry shall also be filed unless there has been no change in either the buildings or the plant since the issue of the previous license, in which case it will suffice if the surveying officer endorses that fact upon the application. The Superintendent of Excise will submit the application with its enclosures to the Collector for orders.

5. All mash tuns, underbacks, coppers, coolers, fermenting and racking or setting vessels shall be so placed and fixed as to admit of the contents being accurately gauged and measured. Before being taken into use all such vessels shall be gauged jointly by the Superintendent of Excise and the Surveying Officer under the rules in force for gauging such vessels, and tables shall be constructed showing the total capacity of each vessel in imperial gallons (in the case of mash tuns in imperial bushels) and its capacity for each tenth of an inch in depth. These tables before being taken into use shall be certified by the brewer or his accredited agent to be correct.

6. The name, or an abbreviation thereof, of each room or vessel shall be conspicuously painted thereon, and where more than one room or vessel is used for the same purpose they shall be distinguished by progressive numbers. Any room or vessel entered for a specific purpose shall be used for that purpose solely.

7. No alteration shall be made in the position or capacity of any gauged vessel without previous sanction in writing having been obtained from the surveying officer or his superior officer; and before any vessel so altered can be again taken into use it shall be regauged and new tables shall, if necessary, be constructed. In the absence of the Superintendent of Excise and to avoid delay, such regauging shall be effected by the surveying officer and such other officers as the Collector may direct, their results being checked by the Superintendent of Excise on his next visit to the brewery.

8. Where beer is stored in casks which are used exclusively for storing beer and not for issue from the brewery, such casks shall be numbered consecutively and each shall have marked on both heads its number and capacity, which shall also be entered in a register to be kept by the brewer in a form prescribed by the Resident. Any cask removed for repair or recoopering shall be regauged before being again taken into use and, if the capacity has been affected, a new entry shall be made in the cask register.

9. The surveying officer will be provided departmentally with proper gauging rods and a standard saccharometer and thermometer. If the brewer questions the correctness of the instruments or the results obtained by the officer, he must immediately put in a written protest which will be forwarded with his remarks by the officer to the Superintendent of Excise who will, after due enquiry, report the matter to the Collector for orders.

10. Each licensed brewer shall keep in some part of the brewery, previously approved by the Collector, a brewing book in such form as the Resident may prescribe. This will be supplied to him by the surveying officer, and it shall be accessible by day or night to all officers authorised to inspect the brewery. In this book the brewer or some responsible person employed by him, whose name has been previously approved by the Collector, shall correctly enter the particulars of each brewing. The book shall not be in any way defaced or mutilated and the loss of it will entail immediate suspension of the brewer's license and if, on enquiry, the explanation of the brewer is unsatisfactory, his license may be cancelled.

11. The brewer shall enter in the proper columns at least 24 hours before beginning to mash malt or grain or to dissolve sugar the day and hour of brewing with the date and hour of making the entry, and at least six hours before the time entered for mashing or dissolving he shall enter separately in the proper columns the quantities of malt or unmalted corn and of sugar or glucose to be used and the hour when all the worts will be drawn off the grains in the mash tun. He shall also enter in the appropriate columns the dip and gravity of the worts collected, the number and description of the vessel or vessels in which they have been collected and the date and hour of the entry. Such entry shall be made within one hour after the collection has been completed or, if the worts be not collected before 6 p. m., the entry shall be made before 8 next morning. If fermentation has started before the requisite entry has been made, the brewer shall enter the true original gravity of the worts. Each entry shall be initialled by the brewer or his agent.

12. Beer shall be brewed from good materials and its quality shall be such as to satisfy the Resident. Wort shall not be brewed of a higher gravity than 1078°. Nothing shall be added to beer after it has been raked and removed to a beer store, except finings or other material approved by the Collector. Beer in beer stores must not be diluted and any beer found in store which has been either diluted or in any way adulterated shall be liable to forfeiture. The forfeiture of the beer will not relieve the brewer from the penalty of fine or cancellation of license under rule 21.

13. Officers surveying breweries shall on every day on which they visit a brewery make a complete survey of the whole of the brewery plant showing in the proper columns in a survey book, the form of which will be prescribed by

the Resident, the condition of each vessel and the dip and gravity of each vessel containing fermenting wort unless such wort shall be fining, when, except in case of suspicion of fraudulent addition of saccharine matter or of addition or removal of wort, the surface need not be broken. A copy of each survey will be made in a similar book and left at the brewery for the information of the brewer.

14. Each brewer shall keep a stock account in such form as may be prescribed by the Resident in which he shall daily enter the quantity of beer actually brewed by him, the allowance for wastage at 5 per cent, the net quantity, the quantity issued and the person to whom issued. Each issue to any place within the Civil and Military Station of Bangalore shall be accompanied by a permit, the counterfoil of which shall be retained in the permit book. Permits shall be consecutively numbered, and before any permit book is taken into use it shall be examined by the Surveying Officer who will certify as to its correctness. No brewer is allowed to issue permits for consignments of beer to be exported to places outside the Civil and Military Station of Bangalore. Application for such permits should be made to the Superintendent of Excise who, if he sees no reason to the contrary, will grant the permit which must accompany the consignment and send a letter of advice to the brewer. All such letters of advice and counterfoils of permits issued by the brewer must be retained for at least a year. The stock book will be checked at least once in each week by the Surveying Officer, the quantities brought into it being compared with those entered in his survey book and the issues with the counterfoils of the permits issued with the letters of advice from the Superintendent of Excise, if any, and with the certificates granted by the officers of the department to whom beer has been issued on the public service.

15. No entry in any of the books kept by a brewer under these rules shall be erased or overwritten. Should it be necessary to correct any entry a line should be drawn through the incorrect entry in such a manner as to leave it distinctly visible and the amended entry should be inserted above it. Every correction shall be initialled by the person making it at the time and by the Surveying Officer in his next inspection of the book. Merely clerical or arithmetical errors need not be specially noticed, but in the case of errors, which cannot be so classed, the explanation of the brewer should be obtained and submitted to the Superintendent of Excise with the Surveying Officer's remarks.

16. Samples of wort in any stage of fermentation or of stored beer may be taken for analysis without payment by the Surveying Officer or any other officer authorized to inspect breweries. Samples of wort during fermentation should be taken by the Surveying Officer at least once in each quarter in accordance with such instructions as the Resident may issue and the Excise Superintendent should have them analysed. On any other occasion on which samples are taken, either of wort or beer the officer taking them should submit a special report through the Superintendent of Excise to the Collector explaining the reasons for sampling and the nature of the analysis required. Samples of brewing materials will only be taken if called for by the Collector. When however there is a large discrepancy between the quantity of malt or unmalted corn entered in the brewing book and that of the grains in the mash tun, a sample of the grain should be taken and at once sent for analysis together with a report giving a copy of the entry in the brewing book, the dip of the grains in the mash tun, the quantity represented by the dip and the percentage of increase or decrease. On this report and after examination of the sample, the Collector will pass such orders as he thinks fit.

17. The stock of beer in every brewery will be taken at least twice in each year by the Superintendent of Excise or such other officer as the Collector may direct and the results reported to the Collector. Stock may be taken at other times by the Surveying Officer or other officer superior to him and shall be taken at once if there is any suspicion of fraudulent practices. On each such occasion the officer taking stock will immediately report the result to the Collector with his reasons for taking stock. The explanation of the brewer for any excess or deficiency exceeding one per cent found in stock should be obtained before the report is submitted. The Collector will pass orders whether any, and if so, how much duty shall be claimed in regard to such excess or deficiency.

18. The Superintendent of Excise after careful examination of all the books will submit to the Collector at the end of each quarter an account showing the quantity of beer actually brewed, less five per cent allowed for wastage, and the duty thereon calculated at the rate of one anna per imperial gallon or at such other rate as may be prescribed by the Government. On this account the Collector will pass orders as to the amount of duty to be paid. Beer issued to the Supply and Transport Department on the public service, for which certificates have been granted by the officers of that department, should be deducted from the net quantity brewed during the quarter before calculating the duty.

19. The brewer shall pay the duty demanded into the Resident's Treasury within five days of the receipt of advice of its amount. Interest at 6 per cent per annum will be calculated upon all sums overdue at the date of payment. The Treasury Officer will grant a receipt to the brewer for all such payments and send a letter of advice to the Superintendent of Excise who will notify the payment to the Collector.

20. If a brewer objects to the amount of duty demanded from him he may move the Collector to revise the charge. But no revision will be undertaken unless and until all sums demanded under Rule 18 have been paid. In the event of the original charge being found incorrect any excess levied from him will be refunded to the brewer, and if the amount claimed from him is found to be less than that actually due he will be called upon to pay the difference at once into the Resident's Treasury. The brewery buildings shall be security for any duty which may become overdue.

21. In case of any breach of these rules or of the conditions of the license either by the brewer or by any person in his employment, it shall be competent for the collector to impose a fine not exceeding Rs. 50 for each such breach or to suspend or recommend the cancellation of the license.

22. The imposition of a fine or the suspension or cancellation of the license under the last preceding rule shall not be held to prevent the prosecution of any person for any offence which he may commit against the provisions of the Excise Act XII of 1896 or other law for the time being in force. If on such prosecution before a magistrate a brewer be convicted, it shall be lawful for the collector to declare his license forfeited.

23. On a date to be fixed by the collector, subsequent to the date on which these rules come into force stock will be taken at all existing breweries. Duty, at the rate for the time being in force, will be claimed on all beer then found, less a five per cent allowance for wastage, and a date or dates will be fixed, by which all the duty so claimed must be paid into the Resident's Treasury.

24. Brewers shall be bound by all additional rules for the control of breweries which may hereafter be prescribed under the existing Excise law or under any law which may hereafter be enacted and by all special orders issued by the Resident with regard to individual breweries and shall cause all persons employed by them in their breweries to obey all such rules.

THE FIRST ASSISTANT TO THE HONOURABLE THE RESIDENT
IN MYSORE.

SIR,

I have the honor to report for the information of the Honourable the Resident that, in accordance with the directions contained in his Notification No. 9 dated the 11th instant, the beer taverns in the Station were sold by public Auction on the 16th idem and realized Rs 93,200/-. Of the 23 taverns put up, 18 have been purchased by the local brewers as noted on the margin; and the remaining 5 by others who are residents of the Station.

2. I append on the margin for purposes of comparison, a statement showing (1) the Khists paid

11. Bangalore Brewery Co.
4. Messrs. J. W. Smith, H. Mairajmaladava
3. S. R. A. R. Chelwanya Moodr.
Average Khist for 5 years ending 1906-07. 128,000/-
Probable Khist for 1906-07. 1,09,000/-
Khist paid for 1905-06 1,20,946/-

paid by the brewers on the 23 shops for the year 1905-06, (2) probable Whist on the same number of shops for the year 1906-07 and (3) the average Whist on the 23 shops for the 5 years, namely from 1902-03 to 1906-07 (both years inclusive). It will be observed that (assuming that the sales in 1907-08 will be the same as the probable sales in the 23 shops for the current year), the amount realized for the next official year represents a Whist of Rs 13-4-00 per hoghead against Rs 15-8-00 now paid by the brewers.

3. Comparing the figures for the previous years with those now obtained and taking into consideration the uncertainty that exists as to the amount of sales next year as a necessary consequence of the improvement which will be introduced in the system of manufacture of beer from 1st April next, I consider that the price obtained (93.200/-) is reasonable and I propose to confirm the sale
in

in due course. I have consulted Mr. Bennett, Madras Alkari Deputy Commissioner, on the subject and he recommends confirmation

4. It should be mentioned here that on the date of sale, two applications were presented to me (one before the sale and the other after) offering to pay Khists at Rs 16/- and 15-10-00 per hog head respectively for all the 23 shops for one year, but I do not think it advisable to give these men a monopoly and propose, with the Honble the Resident's Approval, not to consider either offer. I believe that such a figure could only be paid by dilution of beer, which a monopoly would render possible.

I have the honor to confirm my —
telegram of yesterday "Re Commend Confirmative
Sales. Letter follows"

2. With reference to para 2 of your
letter No. 894, dated 16th instant, I consider
that the probable Khist per hoghead
is, considering the enhanced cost of
the beer, extremely satisfactory. A
certain element of uncertainty
underlies the transactions of the next
year, as it is by no means impro-
bable that sales will fall at the
commencement of the lease until the
drinking classes become accustomed
to the improved article.

3. My telegram disposes of the
tenders

tenders presented to you. I do not see the name of either tenderer in the list of purchasers: if they were so anxious to become purchasers they had their chance at the auctions. To have acceded to either request would have been to have established a powerful monopoly, doubtless to the benefit of the monopolist only as he would have been able to coerce all the brewers and to have obtained beer at practically his own prices.

4. I fully concur in your views expressed in the last sentence of para 4 of your letter. The coming financial year will be purely experimental so far as the beer revenue of the Station is concerned.
